PROFILE

I am a full stack web developer seeking opportunities to contribute to an engineering team as a junior developer. My experience is in Ruby/Rails, HTML, CSS, and JavaScript, including Angular and Meteor frameworks.

SKILLS

Programming Languages • Ruby, JavaScript, CoffeeScript, HTML5, CSS3

Frameworks • Rails, Sinatra, Express, AngularJS, MeteorJS

Databases • PostgreSQL, SQLite3, MongoDB

Testing • Rspec, Jasmine

Methodologies • TDD, Agile, Pair Programming

Additional Technologies • Git, jQuery, Ajax, Heroku, Handlebars

EDUCATION

General Assembly • Web Development Immersive

San Francisco, CA • March — June 2014

During this 12-week immersive bootcamp, I was engaged in 1000+ hours of instruction and hands-on experience, covering a wide range of programming languages as well as computer science fundamentals.

Emerson College • B.S., Communication Sciences & Disorders

Boston, MA • 2004 — 2008

Coursework in linguistics, language acquisition, audiology, and speech pathology.

PROJECTS

Hangry • github.com/jadeapplegate/hangry

A decision tool to help picky groups quickly decide where to eat. Finds the user's location and returns a single result. Built using Ruby/Rails, JavaScript, and the Yelp and Google Maps APIs.

Job Ferret • github.com/jadeapplegate/job-ferret

A job search management tool built entirely in the MeteorJS framework. Also incorporated a custom-built bookmarklet for Chrome and Firefox browsers.

Flight Share • github.com/jadeapplegate/flight_app

Built using Ruby/Rails, JavaScript, and the Twilio and FlightStats APIs, this web application sends real-time flight arrival and delay notifications to a user's contacts.

GroupCamp • github.com/jadeapplegate/group_camp

Application to organize camping trips amongst friends. Built using Ruby/Rails and the Reserve America API, utilizing data from 97% of state and national parks.

SELECT PRIOR EXPERIENCE

Strategic Projects Manager • Isaacson, Miller

San Francisco, CA • April 2012 — March 2014

Executive search consulting at a national firm recruiting leadership for higher education and non-profit organizations. In this role, I managed a team of eight search project managers/administrative staff and was responsible for marketing and new business development resulting in revenue of \$1M+.
